Election/Restriction

1. The Examiner acknowledges Applicants election of Group I (claims 1, 2 and 5) based on the restriction/election requirement set forth in Paper number 14, mailed March 3, 2003. However, upon reconsideration the former requirement has been vacated and a new requirement is set forth below reflective of claims 1-5 and claims, 6-8 newly submitted April 9, 2003.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, drawn to an assay to detect breast cancer, classified in class 435, subclass 7.1. Claim 1 will be examined with Group I to the extent the assay reads on contacting a test sample with at least two antibodies.
 - II. Claims 1 and 6-8, drawn to an assay to detect breast cancer comprising detecting messenger ribonucleic acid (mRNA), classified in class 435, subclass 91.2. Claim 1 will be examined with Group II to the extent the assay comprises polymerase chain reaction technology.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions involve the use of different reagents, implement

Art Unit: 1642

distinct method steps and yield different endpoints. The assay of Group I detects antigen/antibody complexes, whereas the assay of Group II detects mRNA.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alana M. Harris, Ph.D. whose telephone number is (703) 306-5880. The examiner can normally be reached on 6:30 am to 4:00 pm, with alternate Fridays off.

Art Unit: 1642

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Caputa, Ph.D. can be reached on (703) 308-3995. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-4315 for regular communications and (703) 308-4315 for After Final communications.
